Step #4: Click on the name of any bundle to access the curated content.

The screenshot shows the Skillssoft user interface. At the top, there are navigation options: 'Quick Links', 'Recently Viewed', 'See What's New', 'View Learning Plan', and 'Browse The Library'. A notification badge in the top right corner shows '3' with a checkmark icon. On the left side, there is a user profile for Paul Danyluk with a 'My Profile' link and 'Upcoming Events' section showing 'Live Events' with a count of '2'. A large orange arrow points from the 'Live Events' section towards a central grid of course bundles. The grid is titled 'Welcome to a whole new Skillssoft experience! These bundles are a collection of online, curated course content by skillset. Skillsets were designed with credit union needs in mind and are aligned with credit union specific content to create high performing individuals and teams.' The grid contains 12 bundles arranged in a 3x4 layout:

Coaching & Mentoring	Human Capital	Competency Development	Certification Prep
Organizational Effectiveness	Professional Effectiveness	Director Effectiveness	Leadership Development
Business Growth	Relationship Servicing	Finance & Accounting	Technology Effectiveness

Below the grid is a 'Recommended for You' section with a carousel of four course thumbnails. The first three are portraits of men, and the fourth is a graphic with icons and the text '2t' and 'TEST'.

Note: Skillsoft content can still be found on the Learning Gateway via the Search & Learn page and courses can still be viewed and launched from My Courses. Accessing Skillport provides learners with full access to our bundled content, predictive course recommendations, and the ability to plan out their Skillssoft training with scheduling and reminders.
